About Company

The company offers Data Entry , Data Scanning, Digital Marketing , Website Development Rental Services , Recruitment Services . Data entry is a type of clerical work that involves using various processes like typing for entering data into computers ,Data Scanning uses a software application to examine the files stored on systems to discover which files , if any , contain sensitive data or to find specific data . Basically we scan the documents and convert them into softcopies .Now we are also authorized retail partner of Fujitsu Scanner.
